NAOMOTO
Steam, a way to a bright future

Knit Setting Machine KUC-100

Features

New system realized affordable price.It also can be saved space and running energy by Miniaturize machine.
Saving the big running cost and Steam consumption drastically
Unnecessary attached facilities (Air tank)
(Comparison with our existing model NK-1F)
Operation can be done easily and simply.
Plain stacker can be equipped as optional.

Model	KUC-100
Setting Effective Width	760mm
Voltage	2.0kW
Heater Capacity	40kg/h or less
Motor output	(Vacuuming) 400W (Conveyor) 400W (Others) 0.006W
Air Consumption	A little
Conveyor Speed	1~8m/min
Machine Dimension	W1,310xD1,420xH1,220mm
Machine Weight	About 200kg
Steam Consumption	15kg/h
